## Color Me Impressed

Home is a new collection in the Orrefors family. Colored glass in pure and simple forms – beautiful when they hold something and when they don't. Bowls and serving platters can be easily matched or contrasted with each other in inspiring table settings.

## Family Fun In A Box

The humble concept of using readily available parts is a hallmark of many great games. Washers, an outdoor game of skill and determination, has the look and feel of just such a game. Similar to horseshoes, individuals or teams compete against one another in an effort to reach 21 points. The object: throw the washer in the cup. A great incentive for a generation of parents that is rediscovering the value and joy of family game night. The Titanium Series Oreck XL21 is lightweight (9 pounds), incredibly durable and easy to use. From the bottom of its double-helix, high-speed, pile-lifting roller brushes, to the top of its redesigned comfort fit Helping Hand Handle, the XL21 delivers unsurpassed power and maneuverability. *For more information, circle (282) on the FastFax form at the back of this issue, or call Marsha Brooks at Incentive Concepts (www.incentiveconcepts.com), 888-862-9283.*
